\*Reporters can select more than one targeted identity and may experience a single incident differently. Totals may represent a larger number than reports submitted.

\*\*After AY18, political affiliation was removed from form and then added back starting AY22

\*\*\*Starting AY 22, Race and Ethnicity became two separate categories for reporting.

A single incident can be reported more than once by different parties; therefore, the number of reports may be higher than the number of incidents.
